JULY FOURTH

How the Day Will Be Observed in Old Sonoma.

Elaborate Preparations are Being Made to Entertain Visitors.

In five more days the Fourth of July will be here.

This year everybody in Sonoma are counting the days, and all are looking forward with great expectation to the day. Everybody is taking an interest, even those heretofore who were indifferent to public amusements.

The business men of the town and the many summer resorts of the valley are vieing with each other for first prize in the parade.

The young folks while indifferent to the prizes, are loosing sleep trying to think up some funny stunt that is more comic than anyone else. And added to this is the fact that the committee in charge of the parade announce that there will be three bands in the parade, and gives assurance that Sonoma has again come to the front and when our people start anything they carry it through to a finish.

El Verano and Glen Ellen will have features in the parade while we are informed that more can be expected on the morning train from San Francisco

The parade committee has offered the following prizes for the best features in the parade, all of which are well worth striving for:

First prize, best feature, $10.
Second prize, best feature, $7 50.
First best decorated auto, $10.
First best horse drawn rig, $7 50.
Second best horse drawn rig, $5.
First prize, best bicycle, $2 50.
First prize, best mounted horse $5.

Immediately after the parade literary exercises will be held in the plaza and a number of prominent orators will speak.

Caferteria lunch for all will be served by the Woman's Club, and all afternoon ice cream, lemonade and delicacies will be served.

In Union hall in the afternoon a nickle dance will be held.

At 2 o'clock in the afternoon the semi-annual races of the Sonoma Jockey Club will be held at their track on First Street West. The races of this club have a wide reputation and many speedy horses are tried out at each meet.

The program this year promises to equal any given heretofore. The club offers the following program and purses:

Trot or pace—free to all—purse $100.
Thoroughbred race—half mile dash—purse $50.
Road race—purse $10
Trot or pace—2:20 class—purse $75.
One eight mile saddle race—purse $10.
Trot or pace—2:30 class—purse $50.
Quarter mile dash—purse $25.

The secretary of the association, Joseph Ryan, announces that he is receiving numerous inquiries from owners of horses and that the indications are that the entry card of each event will be filled.

In the evening the Woman's Club will give a grand ball in Union hall for which excellent music has been engaged.

The surplus funds secured at the celebration will be used toward laying the foundation of the new Carnegie library.

To sum up the day's program we offer the following.

Tag day all day.
Grand spectacular procession.
Patriotic exercises with music and speaking.
Cafeteria lunch for everybody—salads, beans, sandwiches, coffee and ice cream.
Games, donkey rides, Uncle Sam's grab bag, all sorts of good times.
Races at the race track at 2 o'clock.
Beautiful patriotic Entertainment in the evening, concluding with Grand Ball and Confetti Battle.
Proceeds for new Carnegie Library.

Sonoma Offers Ideal Motor Trip

Studying history from a motor car is a form of outdoor recreation which is rapidly gaining favor with automobilists, and for those who would learn California is replete with material of the most interesting kind

San Francisco owners are particularly fortunate in this respect, for from this city radiate roads which lead in all directions along which may be found landmarks established by the Franciscan fathers during California's pastoral age.

At no place in this State can more reminders of that golden age be found than in the little town of Old Sonoma, the last refuge of the Franciscan fathers and the first capital of independent California. Many of the old adobe buildings, occupied successfully by Spain, Mexico, the Republic of California and the United States, are still standing in a remarkable state of preservation, and the motorists with a camera may secure many picturesque views.

For the purpose of studying this particular locality a party of motorists journeyed to Sonoma last Sunday in an E-M-F touring car. The usual road from Sausalito to Petaluma was followed. At the latter place a sharp turn to the right is taken, and penetrating through a miniature range of hills, the road dips gently into the little valley, where the padres, almost a century ago, established the Sonoma mission.

For a mile before the town is reached the road passes beneath the shade of the century old double avenue of trees planted by the Mission Indians under the direction of the Spanish padres. In the old plaza, the monument marking the spot, and part of the flagpole on which the Bear Flag was raised, still stands. Around the square still stand several of the old adobe buildings from which the visiting grandees of Spain witnessed the bull fights provided for their amusement. Diagonally opposite the square stands the old Sonoma mission, and across the street from this stands the old building which became the headquarters of the United States army in California. A short distance beyond is the old home of General Vallejo.

To vary the return trip to San Francisco the E-M-F party motored to Napa, through the gorgeously colored Brown valley. From that point the valley road was followed as far as the three-mile house north of Vallejo. There the road to Benicia, via White Sulphur Springs, was taken; thence across the straits on the ferry boat Solano to Port Costa, and to Oakland, where the motorists again boarded a ferry for San Francisco.—San Francisco Examiner.

Energy Created by California Climate

Vice President McCormick of the Southern Pacific company is always encouraging and helpful. He gives us words of cheer concerning the inspiring quality of the California climate and the energy that it generates. He gets down to actual figures and percentage, and it is almost as if he were calculating the horse power generated by the invigorating climate of California. Here is the climatic sum in arithmetic he offers:

Ten or twenty acres of California soil will produce as much as can be gotten from 160 acres in eastern sections. The soil is better here and the climatic conditions are such as to give the Californian 55 per cent additional energy—in the east 45 per cent of one's energy is used up in fighting the elements, both in summer and winter

It is the calculation of human energy reduced to an exact science as affected by climatic conditions, but without pretending to be critical about figures it is perfectly true that Mr. McCormick's summing up conditions as a safe basis of fact, notwithstanding that the late Robert G. Ingersoll thought otherwise. Mr. Ingersoll, hastily generalizing without knowledge of the facts and conditions, used to say that the genial climate of California would in a moderately brief time create a race resembling the Mexicans and that in two generations or so the Californians would be seen of a Sunday morning on their way to a cockfight with a rooster under each arm. It was an amusing prophecy which the facts have already set at rest forever. Mr. McCormick is nearer to the truth. There is no doubt that the climate of California breeds energy.—Call.

Reduction of Insurance Rates

A mass meeting of the citizens interested in better fire protection and lower insurance rates for Sonoma was held under the auspices of the Men's League at the City Hall on Monday night last.

The question of whether or not Sonoma is entitled to a reduction in insurance rates with the present water pressure was taken up and thoroughly discussed

It developed that the present insurance rates might be reduced at least twenty per cent provided some additional hose and a new hose cart were furnished by the city and a uniform water pressure at least 80 pounds was maintained.

Figures were submitted to show that the amount which might be saved those paying insurance in the city would amount approximately to $1500.

It was the sense of the meeting that this amount was worth saving, and according a committee consisting of G. W. Reed, F. Duhring and W. E. Clewe was appointed to take charge of the matter and endeavor to bring the deserved reduction as well as to insure better fire protection in the future.

A Barn Dance

Mr. John Tracy entertained The Chanticleer Club with a barn dance. The barn was artistically decorated with China lanterns and evergreens.

At midnight sandwiches and Grenadine punch were served.

Dancing was continued till 2 o'clock. All went home declaring themselves well pleased with the evening.

Among those present were: Mr. and Mrs. B. Darling, Mr. and Mrs. DeSart, Mr. and Mrs Geo. Strate. Misses Petersen, Pearl Thomas, Florence DeSart, Grace Lavier, Stella McGill, Anna Rasmussen, Stella Bill and Lenora Spencer Messrs. John Tracy, Richard McGill, George Arnold, Ray Cooper, Herman Howell, Emil Albers, Jr., Frank Knolle, Harry Hayes and Jack Berger.

Summer Vacation

At a meeting of the members of the Congregational church held on Sunday last, it was voted to give the pastor a vacation during July. Accordingly, after next Sunday, the church services will be discontinued until Sunday, August 6th. The pastor is planning an outing trip in the mountains with the Boy's Club, recently organized, to start on July 18, and are looking forward eagerly for the day to come when they will shoulder their guns and take up the march for the woods.

Additional Parade Notes

A large turn out of the suffragettes from San Francisco is expected since the arrival of Mrs. Hartshorn this morning with a brass band. She announces that they intend to march regardless of the protest of the mayor and chief of police of Sonoma city.

The people will be treated to a small amount of the best music as ever was heard in Sonoma, especially instructed by Prof. J. B. Weemsoky. They will play at the entrance of the great show.

One of the grand features of the day will be on exhibition in a large tent in the plaza. A beautiful golden haired mermaid, which the manager of the chutes kindly offered the Woman's Club, through the influence of the man who some months ago met with an accident on the beach with his machine, when the mermaid became entangled in the machine and was presented to the chutes.

Other features in the show tent of the professor will be the most wonderful bat in the world and the thinnest horse in the world.

Men's League

On Sunday evening next will occur the regular monthly meeting of the Men's League.

The Hon. Frank McGowan, of San Francisco, has been secured to deliver the address. His subject will be—"The Making of an American Citizen." Mr. McGowan is one of the foremost orators on the coast and should be greeted by a crowded house. Special music has been prepared both vocal and instrumental, and a most enjoyable and profitable evening is assured.

Following is the program:

Organ Prelude, Prayer from Lohengrin, by Richard Wagner.

Violin Solo, Intermezzo from Cavalleria Rustisano by Mascagni—Mr. Knolla.

Vocal Solo, with violin obligato, Vesper Prayer, by Frank Brackett—Miss H. Clewe.

The Grizzly Bear

This week the first number of the Sonoma Valley Grizzly Bear made its appearance It is a paper published by the Sonoma Valley Furniture Co. and is edited by John Picetti It is an advocate of home trading and presents several unanswerable arguments why people should patronize their home merchants. The object of the paper besides trying to educate people to trade at home is to announce the fact that furniture and household furnishings can be bough as cheaply if not cheaper right here at home. The paper is for free distribution. Call at the furniture store and procure a copy if you do not receive one through the mail. The mailing list is not complete and some are likely to be missed, and the manager wishes every person in the valley to have a copy.

Suit to Quiet Title

B. Davidow's suit against Mrs Anna E. Griswold et al., and the County of Sonoma, as intervenor, involving land in the town of Kenwood laid out originally as streets, came to trial in Judge Denny's department of the Superior Court on Wednesday, and by night all the evidence was in and the matter was submitted to the court. Attorneys William F. Cowan and W. H. Robertson represented the plaintiff and Attorney Bufford appeared for the defendants.

A number of property owners and residents of Kenwood were among the witnesses, and they desire the streets to remain as originally plotted at the time the town was laid out, so as to provide for future development.

A Narrow Escape

Monday evening Fulton Dal Parto, the bartender at the Palace Hotel, had a narrow escape from being seriously injured by an automobile.

While crossing Broadway, and while near the curb at the bank corner, an automobile driven by Ralph Thompson made a short turn and struck Mr. Dal Parto, knocking him down. Fortunately the machine was under control and by applying the emergency brakes, the auto was instantly stopped and no injury was received except a bad scare

It appears that the accident was of such a nature that neither were to blame. Mr. Dal Parto saw the auto coming, but thought it would make a wider turn, and the driver did not see him or else thought he was safe.

Rev. Leahy Made Rector

The following church news clipping from the Petaluma Courier will be read with interest by many of the inhabitants of this valley:

At a meeting of the Diocesan Council held in San Francisco on Thursday June 22, the Most Reverend Archbishop Riordan made the following appointment:

Rev. Geremiah Leahy, Administrator, St. Vincent's church, Petaluma, to be rector of the same parish, vice Rev. James Cleary resigned on account of ill health.

Rev. James Cleary came to Petaluma in 1873.

Altogether this good priest was in charge of St. Vincent's parish for thirty eight years and the results of his indefatigable efforts are a lasting monument to his memory and the multitude of good deeds will long be held in loving remembrance by his people.

Father Cleary is now in New Ross, County Wexford, Ireland, and at last reports was gradually approaching the end of a well spent life.

About twenty-five years ago Rev. Geremiah Leahy came to Petaluma as assistant to Father Cleary and remained here twelve years in such capacity, endearing himself to all classes, by his pleasing manner, unselfish devotion to the cause of good and his unsparing generosity to the needy and afflicted.

Later Father Leahy was given the parish of St. Francis in Sonoma, where he remained for nine years and succeeded admirably in building up that prosperous parish and winning admiration and esteem of the people of Sonoma Valley.

It was through Father Leahy's efforts that the fine little St. Mary's church was built for accommodation of the mary parishioners in that portion of the valley Later he was called to Stockton, where he remained until called to this city as administrator of St. Vincent's a few months ago much to the satsifaction of the people of Petaluma.

It is very pleasing to note that archbishop Riordan in his wisdom has seen fit to recognize the true worth and ability of Father Leahy, by appointing him the pastor of St. Vincent's parish.

No more acceptable appointment could have been made and one that would be more popular with all classes of the citizens of Petaluma.

Case Goes Over

When the case of the People vs. Burke, the second indictment against the former head of the sanitarium that bore his name, was called by Judge Seawell on Monday, District Attorney Lea asked the Court to put the case over until September.

On July 19 the Appellate Court at Sacramento will hear the appeal filed by Dr. Burke in the dynamite case. The other indictment charges the physician with malpractice.

Don Theatre

After this date the Don Photo Play Theatre will show every night of the week, including Monday nights. For the Fourth of July special pictures have been secured, and the theatre will be open all day. Extra change of pictures in the evening.

Base Ball Notes

By A. FANN.

The Sonoma Giants lost to the Detmers in a game replete with heavy batting, good plays and errors. The home team finished on the short end of a 7 to 6 score

Artie Dee, who pitched for the Detmers, is considered one of the best twirlers in the amateur ranks. He belongs to the Juvenile Clothing Co. Team, of San Francisco.

The Detmers presented a re-enforced line up Sunday. They were the best players we have seen on the home grounds this year.

Percy Nordstrom got two hits off Dee, and made a great running catch in left field.

The visitors' left fielder, Rubenstein, walloped the pile for a homer. Pretty lucky, Rubie.

"Lefty" Owens played third base for the Giants. He is some ball player, and it's too bad we can't keep him all season.

Al. Jansen pitched a star game and should have won. The scorekeeper marked down 18 strike-outs and nine hits—an average of two strike-outs and one hit for each inning. Al. had good control and a ball that exceeded the speed limit.

The Giants will not play Sunday One week from Sunday the Oakwoods of Fruitvale, will visit the "old historic town" (as Geo. Carpenter says) and play a return game with the Greers. The black demon, Meadows, will shoot 'em over for the Oaks.

The Boyes Water Hi-Balls defeated the Wm. T. Valentines Sunday morning by a score of 10 to 5. The boys have struck their gait—now keep it up.

Sunday afternoon, July 2, at Sonoma Ball grounds, near the Palace Hotel—Boyes Water Hi Balls vs. Sing Fat Team of San Francisco. Don't miss it!

S. P. Rates For July 4th

The Southern Pacific announces special round trip rate of one and one third fare between all points on its system on the Fourth of July. The sale dates for tickets are July 1, 2, 3 and 4, good to return until the evening of July 5. Thousands of people will take advantage of these rates to spend a few days away from home. THE SECRET OUT.

A Wide Open Statement.

To refute the many false and malicious attacks, bogus formulæ and other untruthful statements published concerning Doctor Pierce's World-famed Family Medicines, the Doctor has decided to publish all the ingredients entering into his "Favorite Prescription" for weak women and his equally popular tonic alterative known as Dr. Pierce's Golden Medical Discovery. Hereafter every bottle of these medicines leaving the great Laboratory at Buffalo, N. Y., will bear upon it a full list of all the ingredients entering into the compound. Both are made entirely from native medicinal roots. The ingredients of the "Golden Medical Discovery" being a non-alcoholic extract of Golden Seal root, Queen's root, Black-cherry bark, Mandrake root, Bloodroot and Stone root, preserved by chemically pure glycerine.

Dr. Pierce's Golden Medical Discovery, being made of native medicinal roots, is next to Nature and is the best tonic you can use. It fills the blood with rich, red blood corpuscles. It gives you a feeling of strength, and it puts sunshine into your system as no other remedy can. That is why Dr. Pierce's Golden Medical Discovery has been such a favorite for the past forty years. No man or woman can be either healthy or handsome who has impurities in the blood, for it will show in pimples, boils, and eruptions, in the dark circles under the eyes and in the sallow complexion. After taking "Golden Medical Discovery" you are bound to have pink cheeks and a fresh complexion. The muscles get the good, rich, red blood, that puts on strength. It is a flesh builder, but not a fat builder.

As an example of the good results thus obtained, note the following letter:

"In the year 1899, I had an attack of indigestion and got so bad that my home doctor said he could not do me any good," writes Mr. G. Trent, of Gordonville, Texas. "I wrote to you and you advised me to use Dr. Pierce's Golden Medical Discovery, so I bought six bottles, and when I commenced using it I was so weak I could hardly walk about the house. By the time I had used one bottle my stomach and bowels commenced to heal. There were strips of the lining of my bowels as large as a man's two fingers passed and I had a great deal of misery in my stomach and bowels, and also in the rectum especially. I could not eat anything without having much distress afterward, but by the time I had taken eight bottles of the 'Golden Medical Discovery' I was sound and well, and could eat anything I pleased without suffering in the least. Could also do as much work in a day as I ever could. I have not suffered from the trouble since."

MEDICINES OF KNOWN COMPOSITION.

If suffering from an obstinate malady which would one naturally prefer to take, a medicine of known composition, every ingredient of which has the endorsement of the most eminent medical practitioners and writers, or one which, for aught you may know, may be made up of very inefficient and even harmful agents? Is it not best to *insist* upon knowing what one is taking, as is every one's right, whether being prescribed for by the family physician or making use of a proprietary remedy? We think so, especially in view of the disparaging articles concerning various advertised remedies with which the drug and medical journals have been filled for months past. Doctor Pierce courts the severest criticism of the medical profession as to the value of his published formulæ, confident that he will receive fair treatment from all fair-minded, well qualified brethren of the medical profession who cannot be blamed for not endorsing medicines of the composition of which they and the people are kept in ignorance.

Pierce's Pleasant Pellets — These are the **Original Little Liver Pills**, first put up over **40 years ago**, by old Dr. R. V. Pierce. They've been **much imitated** but **never equaled**. Smallest, easiest to take and best. They're tiny, sugar-coated, anti-bilious granules, a compound of refined and *concentrated* vegetable extracts. Without disturbance or trouble, constipation, indigestion, bilious attacks, sick and bilious headaches, and all derangements of the liver, stomach, and bowels are prevented, relieved, and cured. *Permanently* cured, too. By their mild and natural action, these little Pellets gently lead the system into natural ways again. Their influence *lasts*.

BREVITIES

The L. E. Boyce grove of 10 acre of two-year-old naval oranges has been sold to Henry C Post of Monrovia for a cash price of $1000 an acre. This is the record price for an orchard of this age.

Cotton planting has been extensive in the Imperial Valley this season and it is estimated that about 20,000 acres are now under cultivation to the plant. The valley offers ideal conditions for growing cotton and planters with intensive cultivation expect to realize better than a bale to the acre.

It is estimated that the yearly average of 30,000,000 pounds of barley as the product of the Salt River valley, Santa Clara county, will be raised this year. It is also said the wheat crop will be larger than ever before.

The merchants' carnival at Merced held late in May, was a great success. One of the features was a poultry exhibit. The horse show also attracted much attention.

Wins Fight for Life

It was a long and bloody fight for life that was waged by James B. Mershon, of Newark, N. J., of which he writes: "I had lost much blood hemorrhages, and was very weak and run down. For eight months I was unable to work. Death seemed close to my heels, when I began, three weeks ago, to use Dr. King's New Discovery. But it has helped me greatly. It is doing all you claim. "For weak, sore lungs, obstinate coughs, stubborn colds, hoarseness, la grippe, asthma, hay fever, or any throat or lung trouble its supreme. 50c and $1.00. Trial bottle free. Guaranteed by all druggists.

Santa Cruz county is to go strong at the big Panama-Pacific Exposition to be held in San Francisco in 1915, and will raise $50,000 for the purpose of erecting an unique building typical of the redwoods and installing an interesting exhibit.

A Charming Woman

is one who is lovely in face, form, mind and temper. But its hard for women to be charming without health. A weak, sickly woman will be nervous and irritable. Constipation and kidney poisons show in pimples, blotches, skin eruptions and a wretched complection. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate Stomach, Liver and Kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complection and perfect health. Try them. 50c at all dealers.

During 1910 the mint turned out 30,169,353 nickles, and about $1,000,000 worth of these coins are in circulation. In the month of April the Mint Bureau and the Secret service were besieged with calls for help from banks of the Middle West, owing to the spreading of a story that the government had not coined any nickles during 1910 was a counterfeit. Many of the genuine coins were turned into Washington as counterfeits, causing a great deal of trouble.

A Dreadful Wound

from a knife, gun, tin can, rusty nail, fireworks, or of any other nature, demands prompt treatment with Bucklen's Arnica salve to prevent blood poison or gangrene. Its the quickest, surest healer for all such wounds as also for Burns, Boils, Sores, Skin Eruptions, Eczema, Chapped Hands, Corns or Piles. 25 cents at all druggists.

An orange orchard of abont 2000 acres is to be planted in Tulare County. An irrigating system is now being installed on 500 acres of the tract and the land will be prepared for the trees next spring.

A big pear crop is promised in Yolo County. The orchards as a whole are in good condition, showind but little blight or injury from insects.

An Interval

By F. A. MITCHEL

Copyright by American Press Association, 1911.

"It's queer how little difference ten years will make in the look of persons when you're with 'em all the time and how much difference it makes when you don't see 'em. And if you don't see 'em for a matter of twenty year, why, you don't know 'em at all."

The words were spoken by Joshua Sparks to his friend, Mahulda Stickler.

"Yes, Mr. Sparks, and that's the reason I don't take stock in the idee that love is anything more'n livin' together."

"I knew of a case of that kind onct. It came under my own observation. You know Martha Wrinkles, don't you?"

"Yes, I know her; she's a skinny old maid."

"Waal, when Martha was a gal she was as purty as any on 'em. I was a leetle soft on her myself then. But I didn't have no chance. She was sot on Ben Higgins, as fine a lookin' young man as ever handled a pitchfork. And Ben was sot on her. They was the lovenest couple I ever see. They was goin' to git married when Ben was tuk sick. He was sick a long while, and when he got well the doctor said he'd better go off somewhere else to git a change of air.

"Ben, he went to Colorado, where the air is dry and pure. He tuk a pictur' of Martha with him, and they both said their love was the undyin' kind. It didn't matter how long they might be separated, neither of 'em would marry any one else, and they would marry each other when they come together ag'in.

"Ben was twenty when he went away and Martha was nineteen. The separation was longer than either of 'em had any idee of when they parted. Ben was five years gittin' back his health. By that time he thort he'd come to an age when he'd like to have a little somepin laid up before he got married. So he worked and worked, but somehow riches didn't come. It was twenty-one years before he got back.

"Neither he nor Martha was much at writin', even when he went away. First off they wrote onct a month, then onct a year, and after that it was onct in five years. But they was true to each other all these years.

"Ben was forty-two years old when he come back. He come to me fust before seein' Martha at all. I didn't know him. Some men looks purty young at forty-two, and some looks purty old. Ben was one o' the old lookin' kind. He wore specs, his head was smooth as a billiard ball, and what hair there was on the sides was grizzly gray.

"'Don't y'know me, Josh?' he said. 'I'm Ben Higgins.'

"Waal, to be perfite I told him I'd had trouble with my eyes.

"He told me that he'd come home to marry Martha. He'd made some money during the last few years and was lookin' forward to the realization of the dream of his life. He tuk the pictur' of Martha out of his pocket and showed it to me. My sakes, how far away it seemed! There sat a purty young gal that I'd known twenty years before. Now she was gray in the front of her head, and the wrinkles she's got now was beginnin' to spread over her face and neck and arms and hands. I guess it makes a woman sour lookin' to wait for a lover. Anyway, she looked just as if she could bite off a tenpenny nail.

"'Ben,' says I, 'Martha's changed a bit since that was taken.'

"'Mebbe,' he said, 'she might have changed somewhat. I'm goin' to see her tonight, and I'll see how much she's altered.'

"'Come round to my house to supper,' I said. 'You can go to see Martha afterwards.'

"'All right,' he answered; 'I will.'

"I asked Martha to come to supper, not tellin' her she was to meet her old lover. I wanted to see 'em when they first saw each other. I didn't go to no trouble of introducin' 'em, as city folks do. Martha she sot at one end of the table by my wife, and Ben sot by me, the yunkers between. Consequence was that Ben and Martha didn't have nothin' to say to each other. Fact is they didn't appear to take no interest into each other. When Ben and I got up from the table I asked him if he wouldn't like to go out and look at the stock. He said he would, and we went to the barn.

"After awhile Ben said he guessed he'd go and see his old love. Then I told him Martha had been settin' at the other end of the table at supper.

"You ought to seen the way he looked at me. There was a pained expression, as though he had built a beautiful structure over him away up into the sky and it had collapsed and come down on his head. The first thing he said was:

"'Did she know who I was?'

"'No, but my wife has told her by this time.'

"I saw he'd better not go to see Martha right off, and I told him so. He agreed with me. When my wife told Martha that she had set at the same table with her old lover she acted about the same way as Ben did. She didn't go home that evenin', fear in' he would go to see her.

"Ben stayed around here for awhile. He and Martha used to meet onct in awhile, but they pertended not to know each other for what they was when young. Bimeby Ben went back to Colorado, and Martha said she could breathe free onct more."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

When Parasols Began.

Parasols when they first came into use must have been cumbersome. Henri Estienne, writing in 1578, speaks of a parasol as capable generally of sheltering four persons from the sun. And when they diminished in circumference the material still remained of the heaviest. Red velvet parasols, with heavy gold fringes, were carried by ladies of fashion in the days of Louis XIV. At that time it was possible when crossing a bridge in Paris to hire a parasol at one end and deposit it at the other, the charge for the accommodation being a sou. Under the regency fashion went to the other extreme. Men's parasols folded into the shape of a three cornered hat and could thus be carried elegantly under the arm. Ladies' parasols were hinged, so that they could slip into the pocket, for ladies had pockets then.—London Spectator.

Longest Indian Word.

The longest Indian word on record is the following, that was printed in an Indian Bible in 1831:

Wutappesittukqussunnoohwehtunkquoh.

It signifies "kneeling down to him." When the Rev. Cotton Mather, primitive Boston's Puritan pastor, first saw this consolidated phrase it prompted him to jestingly observe that the words of the language must have been growing ever since the dispersion at Babel.—New York Telegram.

Proved Himself Great.

With a sigh she laid down the magazine article upon Daniel O'Connell. "The day of great men," she said, "is gone forever."

"But the day of beautiful women is not," he responded.

She smiled and blushed. "I was only joking," she explained hurriedly.—Western Christian Advocate.

Too Late.

A good many men discover when too late that they made a great mistake in life by not remaining at school a year or two longer than they did.—Rochester Herald.

His Mistake.

"What cured him of flirting?"

"He started a flirtation with a lady who turned out to be selling an encyclopedia at $200 a set."—Louisville Courier-Journal.

It Would Answer.

Rose—I painted this picture to keep the wolf from the door. Fleming—If the wolf is anything of an art critic it will do it.—Smart Set.

Happiness does not consist in things so much as in thoughts.

In the Barnyard.

"Look how queerly that hen is acting. Do you think she is hatching a plot?"

"No; I think she is plotting a hatch."—Baltimore American.

Industry keeps the body healthy, the mind clear, the heart whole and the purse full.—Simmons.
